Dear Harold;

Pursuant to our Sunday telephone conversation please find enclosed William Cooper VHS Video Tape on the JFK assassination. I am giving this to you as a gift. Plea accept it as such.

I have stilled the tape at the point wh Assassin Unmasked flashes on the screen and Cooper then introduces himself and presents 3 uncensored versions of the Zapruder film.

I urge you to please invest 39 minutes of you time to examine this tape & its evidence wi great care. As I believe you are honest, courageous, & capable of seeing clearly I can assure you that you are in for an enormous ~~ass~~ shock.

Shining Star attempted in parts to "bleed" the color out of some portions (not Zapruder however) & Cooper's representative, Stan Barrington, infor me that some purchasers expressed annoyance. He

ever there have been no returns after some 5000 sales (at $35.00 apiece) between the U.S. + Canada. Barrington (in retirement since May-1993) had informed me the many purchasers expressed shock at the graphic proof that William Greer assassinated JFK.

The first, very poor, B+W is from Lars Hanson + John Lear (son of Wm. Lear). Provided that you concentrate on Greer to the exclusion of Kennedy you can see it here very definitely. It does take some getting used to however.

The Japanese version + narration broadcast in Tokyo on Prime Time TV in 1989 (so Barrington informed me) is much better + more easily discernible.

The final version, displayed 6 continuous times, is by far the best + was extracted from the NOVA broadcast of Nov 1988. The division of the screen into two parts with the top showing a computer model was Richter's idea. Here the truth is nakedly + shockingly plain. When NOVA got wind of their blunder (in the middle of Cronkite drivel) they withdrew the program from circulation. You can bet your bottom inflated dollar that PBS Home Video will not make this program available in Video stores. Harold please do something about this. I don't think you're another Groden, Lifton or Lane or Livingstone. If you want I'll try to help. But you'll need a lot more courage than ever before. A Hard Copy editor that Cooper showed this to + who wanted it broadcast was fired by NBC execs in New York. Her name was Bubs Hopper. The truth is much worse than even we had imagined. Very Best Wishes — Paul Schurr

Greer + Kellerman were part of a monumental plot.
Greer was, in my view, the insurance policy f
death in case of bad shooting. Everything wen
wrong. Threeshots from behind (maximum allowa

failed to hit JFK in back of head & kill him. Two shots from Grassy Knoll failed to kill him. You will note that Greer, who had slowed the vehicle to make for easier shooting, glanced back twice. Once to see if JFK was alive or dead, and then a split seco later you see his left arm going over his right shoulde (pistol in hand) firing around into JFK's head & kill ing him.

Now you can understand the urgency in hijacking th corpse out of Parkland at gun-point at all costs by Kellerman.

Please find Greer's date, year & place of birth for me (and Kellerman's data too) & send it to me if you can. There is an unconfirmed rumor that Gre died in Florida in 1985 but no death certificate or death notice has come forth. Best — Paul Schurr
